

**CLEANER
INNOVATION**

AdeXPERT+

ECO-WASH

FEATURES

- High efficiency
- Low consumption, extended lifespan
- Immediate effects on both waterborne & solvent-based paints
- Appropriate for pump systems (diaphragm and piston) cleaning
- Stable, not classified ADEFY solution, easily biodegradable and reusable
- Ready for use

STRONG POINTS

- Petroleum solvent-free, halogenated solvent-free
- No overpowering odor
- Not flammable, not irritating
- Stable and safe throughout its life cycle (use, storage and destruction)
- Terpene-free

IMMEDIATE EFFECTS ON

- waterborne epoxy
- Solvent-based epoxy
- Waterborne PU
- Solvent-based pU
- Aeronautical paints
- Rail paints
- etc.

ALTERNATIVE TO

- MEK
- Acetate
- Xylene
- Toluene
- Benzene
- Acetone
- Propanol
- etc.

TECHNICAL

Aspect	Fluid
Colour	Colourless to light yellow
Smell	Very faint
20°C vapor pressure	< 10 Pa
Flash point	> 100°C
Relative density	950 - 980 kg/m³ (20°C)
VOC according to directive 2010/75/UE	0 %

CONDITIONING

Drum	20 L
Barrel	200 L
Container	1000 L
Other on inquiry	-
