

**CLEANER  
INNOVATION**

**AdeCOLOR**

ECO-WASH

## FEATURES

- High efficiency
- Low consumption, extended lifespan
- Immediate effect on construction industry's waterborne paints
- Destructuration of paints with no polluting wastes or discharges generated
- Stable, not classified ADEFY solution, easily biodegradable and reusable
- Ready for use

## STRONG POINTS

- No CMR, no toxicity
- Made from renewable raw material with natural plant origins
- No overpowering odor
- Not flammable, not irritating
- No caustic nor harmful product
- Stable and safe throughout its life cycle (use, storage and destruction)
- terpene-free, surfactant-free

## IMMEDIATE EFFECTS ON

- Waterborne paints
  - Resin coatings
  - Resins
  - Glues
  - Emulsion
  - Alkyd-based binders
  - Reticulated paints (or not)
  - Etc
- 
- Paint rollers
  - paint brushes
  - Brushes
  - Colorimetry and painting materials (measuring pots, mixing sticks, work plans)

## PROPERTIES

Aspect	<b>Fluid</b>
Colour	<b>Colourless to light yellow</b>
Odor	<b>Very faint</b>
20°C vapor pressure	<b>&lt; 10 Pa</b>
Flash point	<b>&gt; 90°C</b>
Relative density	<b>995 - 1035 kg/m3 (20°C)</b>
pH value +/- 0,5 to 20°C	<b>8,5</b>
COV selon la Directive 2010/75/UE	<b>0 %</b>

## CONDITIONING

Kit of 4 drums	<b>4 x 5 L</b>
Other on inquiry	<b>-</b>

## ADAPTED TO

- Construction and Public Works sector
